PRECAUTIONS

This disc contains game software for the PSP™ (PlayStation®Portable) system. Never use this disc on any other system, as it could damage it. Read the PSP™ system Instruction Manual carefully to ensure correct usage of discs that have been repaired with adhesives as this could lead to malfunction.

Push down one side of the disc as shown and gently pull upwards to remove it. Using excess force to remove the disc may result in damage.

Place the disc as shown, gently pressing downwards until it clicks into place. Storing the disc incorrectly may result in damage.

HEALTH WARNING

Always play in a well lit environment. Take regular breaks, 15 minutes every hour. Discontinue playing if you experience dizziness, nausea, fatigue or have a headache. Some individuals are sensitive to flashing or flickering lights or geometric shapes and patterns, may have an undetected epileptic condition and may experience epileptic seizures when watching television or playing videogames. Consult your doctor before playing videogames if you have an epileptic condition and immediately should you experience any of the following symptoms whilst playing: altered vision, muscle twitching, other involuntary movement, loss of awareness, confusion and/or convulsions.

PIRACY

The PSP™ system and this disc contain technical protection mechanisms designed to prevent the unauthorised reproduction of the copyright works present on the disc. The unauthorised use of registered trademarks or the unauthorised reproduction of copyright works by circumventing these mechanisms or otherwise is prohibited by law.

If you have any information about pirate product or methods used to circumvent our technical protection measures please email anti-piracy@eu.playstation.com or call your local Customer Service number given at the back of this manual.

PAN EUROPEAN GAMES INFORMATION (PEGI) AGE RATING SYSTEM

The PEGI age rating system protects minors from games unsuitable for their particular age group. PLEASE NOTE: it is not a guide to gaming difficulty.

Comprising two parts, PEGI allows parents and those purchasing games for children to make an informed choice appropriate to the age of the intended player. The first part is an age rating:-

The second is icons indicating the type of content in the game. Depending on the game, there may be a number of such icons. The age rating of the game reflects the intensity of this content. The icons are:-

VIOLENCE

BAD
LANGUAGE

FEAR

SEXUAL
CONTENT

DRUGS

DISCRIMINATION

GAMBLING

The third part is an icon indicating the game can be played online. This icon may be used only by online game providers who have committed to uphold standards which include the protection of minors in online gameplay:-

SYSTEM SOFTWARE-UPDATES

This PSP™ (PlayStation®Portable) Game includes System Software update data for the PSP™ system. An update will be required if an "update request" message is displayed on-screen at game start-up.

Performing a System Software update

The update data is displayed with the icon shown here on the Home Menu.

By following the on-screen instructions, you can update the System Software of the PSP™ system. Before performing the update, check the version number of the update data.

- During an update, do not remove the AC Adaptor.
- During an update, do not turn off the power or remove the PSP™Game.
- Do not cancel the update before completion as this may cause damage to the PSP™ system.

Checking that the update was successful

Select "Settings" from the Home Menu, and then select the "System Settings" option. Select "System Information" and if the "System Software" version number displayed on-screen matches the version number of the update data, then the update was successful.

For details on System Software updates for the PSP™ system, refer to the following website: eu.playstation.com

PARENTAL CONTROL

This PSP™Game software has a preset Parental Control Level based on its content. You can set the Parental Control Level on the PSP™ system to restrict the playback of a PSP™Game with a Parental Control Level that is higher than the level set on the PSP™ system. For more information, please refer to thePSP™ system Instruction Manual.

This game is classified according to the PEGI rating system. The PEGI rating marks and content descriptors are displayed on the game package (except where, by law, another rating system applies). The relationship between the PEGI rating system and the Parental Control Level is as follows:

PARENTAL CONTROL LEVEL	PEGI RATING AGE GROUP
9	18+
7	16+
5	12+
3	7+
2	3+

Starting The Game

Right Side View

Top View

1. Set up your PSP™ (PlayStation®Portable) according to the instructions in the PSP™ system Instruction Manual.
2. Turn the PSP™ system on. The POWER indicator lights up in green and the Home Menu is displayed.
3. Press the OPEN latch to open the disc cover. Insert the *FIFA 09™* disc with the label facing the rear of the PSP™ system and then securely close the disc cover.
4. From the Home Menu, select the  icon and then the  icon. A thumbnail for the software is displayed. Select the thumbnail and press the  button to start the software.
5. Follow the on-screen instructions and refer to this manual for information on using the software.

Note: Do not eject a PSP™Game disc while it is playing.

Memory Stick Duo™

Warning! Keep the Memory Stick Duo™ out of reach of small children, as the Memory Stick Duo™ could be swallowed by accident.

Warning! Do not push the POWER/HOLD Switch whilst data is being uploaded from the PSP™ Game disc as this may cause data corruption.

This title uses an autoload feature on boot up where any data present on the Memory Stick Duo™ will be autoloaded.

To save game settings and progress, insert a Memory Stick Duo™ into the Memory Stick Duo™ slot of your system. You can load saved game data from the same Memory Stick Duo™ or any Memory Stick Duo™ containing previously saved games.

Note: Make sure there is enough free space on your Memory Stick Duo™ before commencing play.

Note: This title uses an autosave feature. Insertion of a Memory Stick Duo™ after boot up may result in data being overwritten.

PSP™ system

WIRELESS (WLAN) FEATURES

Software titles that support Wireless (WLAN) functionality allow the user to communicate with other PSP™ systems, download data and compete against other users via connection to a Wireless Local Area Network (WLAN).

AD HOC MODE

Ad Hoc Mode is a Wireless (WLAN) feature that allows two or more individual PSP™ systems to communicate directly with each other.

GAME SHARING

Some software titles feature Game Sharing facilities which enable the user to share specific game features with other users who do not have a PSP™ Game in their PSP™ system.

INFRASTRUCTURE MODE

Infrastructure Mode is a Wireless (WLAN) feature that allows the PSP™ system to link to a network via a Wireless (WLAN) Access Point (a device used to connect to a Wireless network). In order to access Infrastructure Mode features, several additional items are required, including a subscription to an Internet Service Provider, a network device (e.g. a Wireless ADSL Router), a Wireless (WLAN) Access Point and a PC. For further information and setting up details, please refer to the PSP™ system Instruction Manual.

Note: Did you know that the EA™ Media Center allows you to add your own songs to a playlist? To customize your own playlist, move your favorite MP3 files in the /MUSIC folder on your Memory Stick Duo. If successful, your new songs will appear in the EA™ TRAX menu (when the Memory Stick Duo is inserted). It's that simple!

If your MP3 tracks do not appear in the EA TRAX menu, ensure the Memory Stick is inserted correctly. Then, re-enter the EA Media Center.

Saving and Loading

If you've enabled the Autosave feature (via your Profile) your files are saved automatically to the Memory Stick Duo when you begin a playing or management career, enter a Tournament, or exit a match.

- To save your progress manually, access the save option in the mode's main menu and follow the on-screen instructions. To save squad changes, select SAVE SQUADS from the MY FIFA 09 menu.
- To load a saved file, select the load option in the relevant mode.

Game Modes

NEW Be A Pro

Brace yourself for a whole new challenge with Be A Pro. Choose a player and perfect his position over a four-year career.

Once you've adopted your new role you will have to think like a real player. You decide when to make a run and when to hold back, who to mark, and how much ground to cover.

Put in starring performances to increase your Experience Points, upgrade your attributes, and make your new position your own.

Note: Before taking to the pitch, you must create a profile (see p. 11) in order to track game stats and player development.

Be A Pro Camera

Live every game with the Be A Pro Camera, which provides you with a player-focused view of the action as it unfolds.

Be A Pro Controls

If you're going to play as a pro, you've got to think like one. When your team is on the attack, time your runs and call for the ball at the right time. When defending, ensure you cover any dangers posed by your opponents. Teamwork is everything in football and communication with your teammates is the key to success. Wherever you are on the field, make sure you use the following controls to increase your chances of victory:

Call for pass	⊗ button
Call for long pass/cross	◻ button
Call for through ball	△ button
Call for keeper charge	△ button (hold)
Call for shot	⊙ button
Apply pressure (when defending)	⊙ button (hold)
Call for second defender	L button (hold when defending)

Indicators

Be A Pro mode provides many of the same challenges faced by real players. Use the indicators provided to make sure you're in the right place at the right time.

Note: For an explanation of all the icons used in the game, select HINTS & TIPS > BE A PRO ICONS from the Career Central screen.

Positioning

Knowing where to be on the pitch at any given moment is a must, whatever position you've adopted. In order to improve your positional sense, use the arrows as a guide. Follow them until they disappear to make sure you're in the right place at the right time.

Offside

To ensure the assistant referee doesn't bring a swift end to another attacking move, make sure you keep an eye out for his flag. When you stray offside, a flag icon appears. To avoid being pulled up (and losing valuable XP), run back past the last defender to get into an onside position.

Marking

There's no time to relax, even when the opposition has the ball. Players you should be picking up are highlighted by a red ring. Make sure you track them!

XP (Experience Points)

During a match your every move is rated, whether you're caught out of position, or pull off a stinging shot, and an explanation appears at the bottom of the screen.

At the end of the match, your overall performance is calculated and, if you've had a good game, you're awarded XP in the Match Results screen (you can gain extra XP by completing player and team tasks set before the game). Every time you fill the Level

Meter, you can purchase further upgrades for your player by selecting BOOST ATTRIBUTES in the Career Central screen.

Performance Meter

Whether your team is winning or losing, your performance matters. Use the performance meter at the bottom of the screen to measure the success or failure of your hard work. If there's more green than red, you're doing well!

Other Game Modes

Total Footballer

Check out this graph to view your usage of the various modes in *FIFA 09*. Play more modes to gain a more complete profile.

Manager Mode

Make the right decisions over a 15-season career to get the best out of your players, earn prestige, and meet your Board Expectations. Keep an eye on your team chemistry, fan support, player contracts, and job security and regularly check the newspapers to stay ahead of the game.

Player Growth

Give players plenty of match experience to improve their skills. View the Match Facts screen after matches to see a player's current match experience and form and check his Player Bio screen for changes in his attributes.

Friendlies

When you start your career, you can schedule four pre-season friendly games.

Simulate Match

Select QUICK SIM to resolve a match quickly (without your input) or VISUAL SIM to simulate a match with the option to intervene and call the shots from the touchline. You can access Team Management, view Lineups, or choose to play the match as normal at any time.

Football IQ

Prove you're as skilled with your mind as you are with your feet to unlock new game content.

Note: Local Game questions are all about your team and the league they're in, National Cup focuses on the country your team is from, and International Championships cover the entire world of football. Friendly Matches are similar to Local Games but you can choose to center the questions on any team.

How to play:

- Once the first question has been thrown at you, select DRIBBLE to take a question or PASS to pass the ball and get a new question. Note that passes go to an open teammate who is behind you, so passing a lot moves the ball slowly back towards your own goal.
- Select the button corresponding to your chosen answer on-screen. If you answer incorrectly, the opposition takes control of the ball and moves it closer to your goal. Answer a question correctly and you'll move the ball up the pitch towards the opposition's goal.
- When you're close enough to the goal, you can try to score by answering two questions in a row—one to shoot and one to get it past the keeper. The difficulty of the questions depends on the level of knowledge you display.

Tournament

Test your skill in a featured tournament or customize one of your own.

Challenges

Put yourself in the boots of some well-known players in a variety of testing scenarios.

Custom Formations

Create your own formation to pull off that tactical masterstroke. To build a formation, select MY FIFA 09 > TEAM MANAGEMENT > CUSTOM FORMATION and follow these instructions:

- 1 Choose an empty save slot.
- 2 Select a formation to use as a base.
- 3 Select a position (the green box shows the area it currently covers).
- 4 Press the Analog stick to move the selected position within the formation, then select DONE (if you move a position outside the green box, it will turn into a new position).

Note: A position's color changes according to which third of the pitch it's in: red for strikers; green for midfielders; blue for defenders; and yellow for goalkeepers.

- 1 To define a position's attacking runs, select a position from the list, press the Analog stick to choose a direction, and press the  button to confirm each one (you can assign up to two directions to each position).
- 2 Select DONE and then assign defensive runs in the same way as attacking ones.
- 3 Name your custom formation and press the **START** button. Select the team you wish to assign this formation to and select SAVE AND EXIT.

Online Play

REGISTRATION REQUIRED TO ACCESS ONLINE FEATURES. EA ONLINE TERMS & CONDITIONS AND FEATURE UPDATES ARE FOUND AT www.ea.com. YOU MUST BE 13+ TO REGISTER WITH EA ONLINE.

EA MAY RETIRE ONLINE FEATURES AFTER 30 DAYS NOTICE POSTED ON www.ea.com OR 30 DAYS AFTER THE LAST DAY OF THE 2008- 2009 FOOTBALL SEASON.

Interactive Leagues

Represent your club online by playing the same matches as the real-life fixtures. Your results, combined with those of your fellow fans, will decide if your club rises to the top of its Interactive League or plummets into the relegation zone.

Interactive Leagues: Scoring

There is one overall cross-platform scoring table for each supported league. Every time you win an Interactive Leagues match, it counts as one vote for your club in the fixture. Play as many matches as you can during a playing window of a couple of days leading up to the real match.

When the play window for the fixture closes, the club with the most votes gets the victory and three points in the table.

PlayStation®2 Link

Transfer your career files from your PSP™ (PlayStation®Portable) system to your PlayStation®2 and vice versa. You need a USB cable with mini-B connector to connect your PlayStation®2 to your PSP™ system.

PSP™ to PlayStation®2

- 1 After connecting with a USB cable, select GAME MODES from the main menu on the PSP™ system. Access MANAGER MODE, then create or load a career.
- 2 From the Manager Central hub menu, select SAVE/LOAD/LINK, then PlayStation®2 LINK. Next, press the  button to search for the PlayStation®2 and establish the link.
- 3 From the PlayStation®2, select GAME MODES from the main menu, then select MANAGER MODE and PSP™ LINK.
- 4 Press the  button to search for the PSP™ system and establish the link.

PlayStation®2 to PSP™

- 1 After connecting with a USB cable, select GAME MODES from the main menu on the PlayStation®2. Access MANAGER MODE then create or load a career.
- 2 Select SAVE/PSP™ LINK in Manager Mode Central then select EXPORT VIA PSP™ LINK to export your career to the PSP™ system.
- 3 On the PSP™ system, select EA SPORTS EXTRAS from the main menu, then PlayStation®2 LINK. Press the  button to establish a link with the PlayStation®2.

Playing behind a Firewall or Router

This game uses the following network ports for playing online. If you are running a firewall, ensure it is set to allow the game to communicate on these ports both inbound and outbound:

TCP Ports: 80, 443, 13505, 30490

UDP Port: 3658

If you are having difficulty connecting to other players online and your Internet connection is behind a router using NAT

(Network Address Translation), you may need to enable port forwarding on your router by forwarding all data on port **UDP 3658** to the IP address of your PSP™ system. Alternatively, you can put your Router into a DMZ—please consult your router help files for details on how to do this.

For more information on firewalls, port forwarding, and DMZs, please visit our online Support Centre at:

<http://support.electronicarts.co.uk>

Note: A WLAN access point is a device used to connect to a wireless network. SSID and WEP keys are types of wireless network information. They may be required when connecting to an access point or a router. This information is generally set in the access point or router using a PC.

Note: Connecting to the EA servers can take up to a minute.
